	Progress review 31-35A		94

Unit	Title	Situations at work	Page
1B	What's your job?	Metalworking professions, job descriptions	96
2B	Yellow pages	Small companies, products and services	98
3B	Tools from A to Z	Basic metalworkers' tools and their use	100
4B	Metals everywhere	Metalworking products and materials	102
5B	CAD	Computer-aided design, shapes, drawings	104
6B	Nuts and bolts	Standard fastening devices, head shapes, tools	106
	Progress review 1-6B		108
7B	Alexander's workshop	A mechanic's workshop, fittings, tools, jobs	110
8B	Precision	Measuring and marking, tools and functions	112
9B	Multi-spindle drilling	Drilling machines, types, operations	114
10B	How an engine works	A four-cylinder engine, components, functions	116
11B	All shapes and forms	Plastic products, materials and processes	118
12B	Cutting chips?	Metalworking processes, descriptions, machine tools	120
	Progress review 7-12B		122
13B	A sixth sense?	Computers in cars, features and functions, components	124
14B	The iBook	Personal computers, notebooks, features, data	126
15B	Steel stair railing	Metalworking projects step by step, jobs, tools	128
16B	Pistons and power	Internal combustion engine, components, service	130
17B	Roofs and gutters	Sheet metal work, materials, basic jobs, instructions	132
18B	Body and shell	Car body parts, types, colours, damages, repairs	134
19B	3000°C and more	Gas welding, components, assembly instructions, safety	136
	Progress review 13-19B		138
20B	39 hours a week	Working hours, subjects at school, jobs at work	140
21B	SAG Salzburg Aluminium Group	Company profile, products and services, presentation	142
22B	Micro hydro-electric power	Hydropower plants, elements, functions	144
23B	Bo'Bo'	Locomotives, design, reading data sheets	146
24B	Magna Steyr	Company profile, automotive engineering services	148
25B	CAD to CAQ	From computer-aided design to manufacturing	150
26B	FSA 720/740	Electronic automotive diagnostics and testing	152
	Progress review 20-26B		154
27B	Pinacho S 90	Parts of a lathe, functions, turning operations	156
28B	Body and paint	Car body repairs, process, parts, supplies, invoice	158
29B	TM 3500	Injection moulding, machine units, function	160
30B	Integral ABS	Motorcycle ABS, parts, functions	162
31B	GMAW, FCAW or what?	Gas-metal arc welding, components, gases, applications	164
32B	ADC	Automatic distance control, components, functions	166
33B	Pinacho S 90	Parts of a lathe, functions, turning operations	168
	Progress review 27-33B		170
34B	DYNACAST	Die-casting, hot- and cold-chamber processing	172
35B	ED Machining	Electrical discharge machining, processes, functions	174
36B	The MINI plant	Automated assembly, departments, processes	176
37B	airfit control	Pressure regulators, function, applications	178
38B	HEVs	Hybrid electric vehicles, engines, advantages	180
39B	Alternative energy	Solar, wind, hydro and tidal power	182
40B	Explain this one	The fuel cell, parts, fuels, functions, application	184
	Progress review 34-40B		186
41B	Career opportunities	Job advertisements, requirements, europass CV	188
42B	Yours sincerely	Applying for a job, letter layout, guidelines	190
43B	Can you make it at ten?	Making an appointment, date, place, phone call, letter	192
44B	Confidential	Job interview, personal data, education, application form	194
45B	Working abroad	Job description, future plans, contract of employment	196
	Progress review 41-45B		198
	Final review		200
	CD Script		202
	Word List		230
